MINING, BUSINESS AND STOCKS

FORENOON ON THE EXCHANGE.

Condition of Mining Stock Market Little Changed From Yesterday.

UNCLE SAM CON. STIFFENED.

Mine Has Made Frequent Shipments This Week-Prospects for a Dividend-Today's Quetations.

During the forenoon calls of the mining exchange today, 10,990 shares of stocks were transferred, for which was paid the sum of \$3,808.25.

There was not much change in the price of stocks as compared to yesterday. Daly, the Park City stock which has been strengthened by the appearance of ore in the Ontario drain tunnel, now being extended to Daly-West teritory, opened in good form and advanced to 2.54; but this was followed by a slight reaction. May Day found takers et 8 and 814 cents. Uncle Sam Consolidated made the only advance of consequence during the early calls, the stock going up to 261/2 on the open board. The mine has made some heavy shipments of ore this week, and it is reasonably certain that the directors, at their next meeting, will post another dividend. While nothing positive has been said, nevertheless it has been in-

On the open board Naildriver came out at 45 cents, but only in limited quantity. Sacramento, as has been usually the case of late, was quoted low; a 300-share lot going at 10 cents. The closing quotations and sales were as follows:

trip to his group of mines, returning Sunday. This trip put in the cabins supplies of all kinds sufficient for the supplies of all kinds sufficient for the force of men till after the break up of the roads in April. Four men went out to assist in placing the goods on the hill, and later Mr. Peterson went out by private slelgh and gave orders for immediate work. Another well-loaded team went out Tuesday of this week, and the main tunnel will be pushed ahead with night and day shifts. The showing in the upper workings is first class, and no one is more confident of even more richness at great depths than even more richness at great depths than Mr. Peterson and the other stockhold-ers. The roads are in perfect condition and even the high mountains show not to exceed 14 inches of snow.

LEDBEETER'S GOOD LUCK. Former Salt Laker Makes a Strike at Encampment, Wyo.

John Ledbetter, who is well known to the mining fraternity of this city, and who has been operating in Encampment, Wyo., district for several years, is aid to have made a good strike in what is known as the Portland tunnel property and which gives promise of developing into one of the big propositions of the camp. The vein encountered in the tunnel shows copper values running from 30 to 40 per cent. values running from 30 to 40 per cent. The tunnel is now in over 200 feet, and was started about two years ago. It was started on a granite contact, which runs through the entire group of claims lengthwise. These veins which the tundel to determine the cutnel is designed to cut, are seven in number, all nearly parallel and running oward the contact

The veln just struck is one that out-crops on the surface, and showed about four feet of mineral where it was op-ened in the discovery shaft. There are seven known veins crossing the prop-

BULLFROG DISTRICT. Rhylolite is Likely to Become the Metro-

polis of New Camp. A correspondent of the Goldfield Re-

A correspondent of the Goldfield Review writing from the new Bullfrog district says the camp is very active and indications point that Rhyolite will be the principal town.

A day and night shift of four meneach are working on the original Bullfrog mine and a shipment of 20 tons of the grettlest, as well as richest, ore ever taken out of the ground in any country will soon be made. Supt. McGallard is very-much elated over the excellent showing in the new tunnel that is being run to cut the rich shoot, and which is now in about 40 feet. Numerous stringers of high grade ore are coming in, which give evidence of are coming in, which give evidence of the near approach to the big ore body. This mine is no doubt one of the most promising properties in this section of Nevada, and with development will

Within the past few days Messrs.
Ray and Darsey have four some high grade ore in their proj near the new town of Rhyolite, a leir prospects of opening up a bonanza are considered dattering.

sidered flattering.

The Ladd, Renson & Clark property is being worked with two shifts that

are taking out some good ore.

Adjoining the big Ladd strike on Ladd mountain is the property of the Montana-Bullfrog company, a promotion of C. H. Elliott and as ociates. This is one of the most promising un-developed pieces of ground in the dis-trict. Work is being pushed as fast as possible with a tunnel which should cut the Ladd vein at a distance of about 75 feet.

BRIGHT OUTLOOR.

Milford Citizens Confiden of Prosper ous Times Aga n.

Dr. G. H. Fennemore of Milford was in the vity yesterday on a brief business trip. The doctor states that while Milford is quiet at the present time the citizens of that town feel encouraged over the outlook for the future.

The announcement of Samuel Newhouse's acceptance of the managing directorship of the Majestic Copper properties has had a wonderfully stimulating effect. Everyone now feels assured to the Majestic's success.

It is generally understood in Milford that it is only a question of a short time until the smelter will be in commission again. Dr. G. H. Fennemore of Milford was

MINERAL WAX

N...IES OF UTAH.

Important Improvements Planned For This Year at Soldier Summit and Colton

LARCE REFINERY TO BE BUILT.

Will be Put Up by Utah Ozokerite Company, Recently Incorporated, At Colton.

A few years ago it was predicted by gentleman familiar with the mining of ozokerite, or mineral wax, that this industry would become an important one in Utah. Apparently this is com-

For several years the American Ozokerite company of which Samuel L. Butler of this city is manager, has been quietly adding to its holdings near Soldier Summit and in the way of development and improvements has expended, it is said, several hundred thousand dollars. It has erected a reflory and during the present year will enter the markets of the east with its product. The company has already sold considerable wax, but the past year has been devoted almost entirely to the development and improvements of its properties,

Recently another company was organized—the Utah Ozokerite company, and yesterday the articles of incorporation were filed in the office of the secretary of state. The latter will operate at Coiton and, during the present year, will build a plant for refining ent year, will build a plant for refining purposes. B. F. Caffey, president of the new

company, gave this information to the 'News' today and stated also that it is proposed to carry on a very vigorous campaign. Recent development, Mr. Caffey stated, has demonstrated that the vein crossing the property is at least eight feet in width; that 18 inches of it is almost pure wax, and that over three feet will average better than 20 per cent wax. "We have followed the vein in the shaft from followed the vein in the shaft from where it was first encountered—16 feet below the surface, down to its present depth, 100 feet, where a station is being cut. A level was established at 50 feet and the vein cross-cut. The discovery of the ledge was made while digging a well.

ligging a well.

Mr. Caffey says the deposit is undoubtedly one of the largest in the world and he knows of no place where the product is found so nearly pure as in the case of the 16 inch streak men-

tioned.
Mr. Caffey is confident the new company is in position to make a great deal of money and states that the product of the mine can be marketed at Colton for about \$200 per ton. The principal workings of the Utah Ozokerite are located within the limits of the

MINES AT ALTA.

Good Progress Now Being Made at South Columbus.

Supt. A. O. Jacobson of the Columbus Consolidated at Alta, was down from the Wasatch camp yesterday and re-furned again this morning without waiting to attend the annual stockhold.

ers' meeting this afternoon.

The storm of the past few days was quite severe at Alta and the mountains are now covered with enough snow to insure plenty of water during the dry

Mr. Jacobson brought some cheerful information from the South Columbus mine, where a force of men is engaged in running a long tunnel which is now in considerably over 800 feet.

For several months the drills have

been cutting slowly through a decidedly hard lime formation. A few days ago a small fissure vein was encountered, bringing with it a change which augers to the advantage of the men behind the machine. The rock has softened and better progress is being made than has

better progress is being made than has been the case for some time.

The South Columbus management claims the company owns an extension of the contact vein in which a large tonnage of ore has been blocked out in the Columbus Con., and is therefore, confident, that with a little more development results of a very substantial character will be obtained. character will be obtained

Portland Mining Co. Meeting.

Council Bluffs, Iowa, Feb. 7.—Wher President Burns, of the Portland Min-ing company called the morning ses-sion of the annual meeting to order to day the committee on credentials was still out and not ready to report. An adjournment was taken until after-

CONCENTRATES.

Five cars of ores from the original Tonopah mine are in today's market. Ex-Judge W. C. Hall and Dr. U. U Withee are registered at a Goldfield

Director A. W. Chesterton of the Consolidated Mercur returned yesterday from a trip to Twin Falls, Ida.

A lot of Mammoth ore was sold yesterday afternoon on controls showing 4.6 per cent copper, 10.4 ounces silver, and \$7 in gold.

Manager George H. Dern of the Con-solidated Mercur is at that Mercur property after a vacation of several weeks in California. George P. Sparks, local representative

of the Dearborn Drug & Chemical com-pany, is in Bingham today, in the interests of his firm. The citizens of Goldfield, Nevada, are

preparing to look out for the educa-tion of the youth and will establish a public school system there. Supt. A. O. Jacobsin of the Columbus Consolidated of Alta is in the city to-day to attend the annual meeting of the

stockholders of that corporation. Coshler E. J. Pithey of the Utah Consolidated Mining company, spent yes-terday in Bingham. He will pay off the employes of the smelter tomorrow.

The ore and bullion settlements reported late yesterday were as follows: Crude ore and concentrates, \$26,000; base bullion, \$42,000; gold bullion, 4,000. In the extension of the Ontario drain tunnel into the ground of the Daly Mining company, a fissure has been cut, which contains a favorable show-

Five cars of zinc ores from the Horn Silver mine at Frisco reached the

samplers today. The ore goes to Iola, Kan., for treatment, and averages about 40 per cent.

Park City ore shipments last week aggregated 4,029,753 pounds, the shippers being: Daly-West, 1,542,743; Ontario, 273,000; Silver King, 2,164,160; Kearns-Keith, 49,850. The annual meeting of the stockhold-ers of the Ploche-Nevada Consolidated, which was cheduled to have taken place

yesterday afternoon, has bene post poned for one week. The Honerine mill at Slockton has closed bending the making of connections between the shaft and drain tunnel. An upraise of 75 feet more will make it complete.

The shipment of American Flag ore, which arrived at the samplers several days ago, was gold yesterday afternoon on controls showing 65.5 ounces silver, \$3.60 in gold, 5.5 per cent lead and 1.3 per cent copper.

The sinking of the Winze below the 600 level at the New York Bonanza nine at Park City is going forward steadily. The showing of ore is good there, but Secretary Dunning says there are four or five feet of it.

The Moose Creek placer mines of The Moose Creek placer mines of Newsome, were this week sold to a Chicago corporation, for what is said to be the highest cash price paid for any property in this section of Idaho since the Big Buffaio. The deal was closed up this morning by Mr. Richardson, president of the company. The property has been worked for well on to 40 years, and has yielded good returns from the first.—Grangeville (Ida.) Standard.

Standard.

A. E. Hyde of Salt Lake City has purchased the No. 2 lease on the Sandstorm from Stimson, Braffet, Aubrey, Driggs and Kendall, taking possession on Tuesday at noon. It is the new leasers' intention to prosecute work most vigorously. There is a shaft down 24 feet and a tunnel in about 30 feet, which is being run to tap the ledge. Assays have been had running as high as \$250, but nothing in place has yet been found.—Goldfield Review.

LIVERPOOL GRAIN.

Liverpool, Feb. 7.-Close: Wheat-March, 7s, %d; May, 6s, 11%d; uly, 6s,

DAILY GRAIN LETTER.

Messrs. Logan-Bryan of Chicago telegraph their local correspondents, James A. Pollock & Co., over their private wire, on the grain and provision situation, as follows:

Chicago, Feb. 7 .- Aside from some little weakness early in the session mar-ket showed better form today, closing practically at the top price. The action of the market would indicate that the trade found itself sold out and were forced to bid prices up to get wheat back. Sentiment continues extremely back. Sentiment continues extremely bearish. News today was of a less favorable character. Considering temper of the crowd and the narrow market we have, it does not seem possible to us to bring about any serious deeline at this time. We continue to feel our former views are being verified and as yet, see no occasion to charge our yet, see no occasion to change our

Corn-This market fluctuated all day within ¼ range and tells its own story of a dull and stupid market, Recent activity apparently has petered out and we see no immediate chance for im-provement. We continue to feel it will take a better cash demand to bring about and sustain present or higher

Oats-This market moved in sympathy with corn, both in price fluctuas-tions and amount of business transact-ed. Pit scalpers continue to make the quotations and the action of the mar-ket would indicate they find it mighty lean picking.

lean picking.

Provisions—Hogs are still coming to the market in much larger quantities than requirements call for and continue to dominate the situation. The action of the market does not hold out much encouragement for improvement but we rather feel it will continue to be a faily good scalaring affair. a fairly good scalping affair.

PEACE RUMORS HELP MARKET.

After a Fair Opening Prices of Representative Stocks Fell, Obscure Specialties Rising.

SOME REACTIONS IN RAILROADS

Then Trading Broadened and an Upward Movement Was Started.

New York, Feb. 7.-Peace rumors strengthened the London stock market this morning and helped the local market, Uniform price movement ceased after the opening dealings, prices of representa-tive stocks falling while obscure specialties rose. The Metropolitan stocks were realized on heavily and sold about a point below yesterday's closing, although Interborough Rapid Transit rose 3 points of the curb. Reactions in the railroads were not large apart from Hocking Valley preferred, which yielded I and New Haver 21/2. Buying of some less active stocks re sulted in Pacific Coast rising 2%, the sec ond preferred 4% and the Minneapolis, St Paul and Soo and Sugar, Realty, Leather preferred, Corn Products, Biscuit, Adams Express and Pullman 1 to 2. Large orders were placed in the bituminous coal stocks especially C. & O., and Norfolk and West ern, which advanced to 1 % respectively.

Atchison gained 1. The market broadened and additional The market broadened and additional stocks were brought into the upward movement, but some of the market leaders remained unresponsive. The rise in Norfolk & Western extended to 34, Atchison 13, Illinois Central 14, Consolidated Gas 35, Brooklyn Union Gas 5, Leather preferred 24, Tennessee Coal 24, and Pennsylavania, Hocking Valley, Northwestern, Manhattan, Colorado Fuel and People's Gas L. Third Avenue declined 24, and Chicago, St. Paul, Minneapolis and Omaha 2.

and Chicago, St. Paul, Minneapolis and Omaha 2.

Bonds were steady at noon.

Low priced industrians apparently afforded a better field for a successful turn than the railroad stocks. In the early afternoon the buying centered larsely in the metal stocks, although United States Steel did not benefit appreciably from the demand. Tennessee Coal, Beet Sugar preferred and Rubber preferred gained 3 points and Colorado Fuel Sloss-Sheffield Steel preferred United Railway Investment, North Americaa, Rubber, North Americaa, Rubber, North Americaa, Rubber, North Americaa, Euber, Northeapo & St. Louis and Chicago Terminal preferred 1 to 2.

Different stocks were advanced to cover profit taking elsewhere. This maneuver gave the market a somewhat irregular appearance, but the general undertone was firm. Northwestern moved up 2% and New York Central, St. Louis Western preferred B. Rubber Goods and Republic Steel preferred to 1½. Grass Twine fell 1.

Contracts for Plate Armor.

Washington, Feb. 7.—The board of officers appointed by Secy. Morton to investigate the capacity of the several armor plate companies has recommended that the bid for \$,000 tons of armor for the battleship New Hampshire and the armored cruiser North California and Montana, of the Midvale Steel company be rejected. It is probable that two-thirds of the contract will be awarded to the Bethle-hem company and the remaining one-third to the Carnegie company.

Iowa Meat Produce.

Des Moines, Feb. 7.—The second annual meeting of the corn belt meat producers of Iowa convened here today.
